This entire topper is constructed using 4" squares. I used a layer cake in Winters Lane by Kate & Birdie Paper Co for Moda Fabrics, pulling out the assorted 10" squares I wanted for this project. The values are light, medium and dark to give the project some contrast so keep that in mind when picking your fabrics.

Cutting

Cut 6 Brown, 12 Red, and 18 Blue – 4" squares.

Cut backing fabric on the fold and use half for the backing and from the other half, cut (4) 2.5" strips to create your binding.

Your backing and binding can also be pieced from FQ's or the rest of your layer cake!

Draw a diagonal line on the wrong side of all your blue squares. Placing right sides together, pair all of your brown and red squares with a blue square.

Stitch 1/4" away from both sides of the drawn diagonal line. Then cut on the line to yield two half square triangles.

-SASSYTIP-

When removing blood stains use your own saliva....i know, i know! It is a little gross, but the enzymes in your saliva can best break down your own blood. If that is out of the question..try dabbing hydrogen peroxide. You can use a q-tip for either method.

Press open and trim to 3.5". You should have a total of 36 half square triangles, 12- brown/blue and 24- red/blue.

Using the picture above, layout your half square triangles.

Sew all of your half square triangles into rows and then join the rows together to complete your top!

Now layer your backing, batting and quilt top and quilt as desired.

Great Deals on Fabric from Craftsyl!

Product not found.

I went with a straight line quilting design for mine using my walking foot. A dense quilting design helps your table topper lay nice and flat.

Join your 2.5" strips together to create your binding.

I used [THIS](#) machine binding technique and one of my personalized labels that I had made [HERE](#).

Oh I love this and am wondering how to make it as a table runner instead – any ideas???

If you don't Mind how wide it is.... you can make three of the block and that will make it longer.

What a striking, beautiful pattern! Thank you for sharing this! I'm wondering, (understanding that the overall dimensions will be bigger) are there any important considerations not to overlook if I wanted to try this with a bunch of pre-cut 5" charm squares? Again, thanks.

As long as each HST unit finishes the same size... it will be fine:) These finished at 3.5".

Thank you for the reassurance! I am a very new quilter, so I'm naturally reluctant to assume that it's safe to deviate from an established pattern. I appreciate your encouraging reply. 😊
