Scrappy Mug Mat Tutorial

[Print](#) [PDF](#)

I had much fun sewing these little scrappy mug mats!

I decided to call them Mug Mats because they're just a bit smaller than the larger Mug Rugs I usually make...

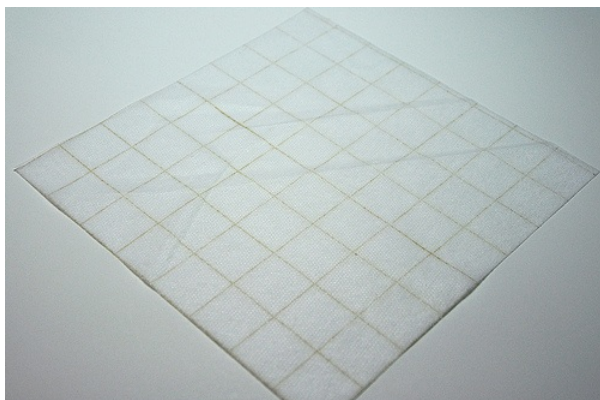

Here's a quick tutorial on how I made them...

SCRAPPY MUG MATS

finished size 6" x 6"

- 1) Cut 2"x2" squares of scrap fabrics - you will need 16 squares for each mug mat
- 2) Cut a 8" x 8" square of Fusible Grid Interfacing

{you can use any kind of fusible interfacing, the grid just helps to keep your squares of fabric aligned. Just make sure you use light weight}

3)

MY TOP 10 POSTS

Scrappy Tree Mug Rugs!

Quick and Easy Valentines Treats!

Lay your 2" x 2" pieces of fabric onto the Interfacing (following the grids) until it looks good to you

Dollar Store Christmas Stocking with a new do!

Quick Directions for the Christmas Pinwheel Runner

Jell-O Popcorn Balls

"Vintage" Christmas Tree Wallhanging

Valentine Candy Cane Lollipops!

4)
Press your fabrics to the Fusible Interfacing per directions that come with Interfacing

5)
Matching right sides together, refer to photo and finger press along the vertical lines first, sew 1/4" seam. Repeat this for each row.

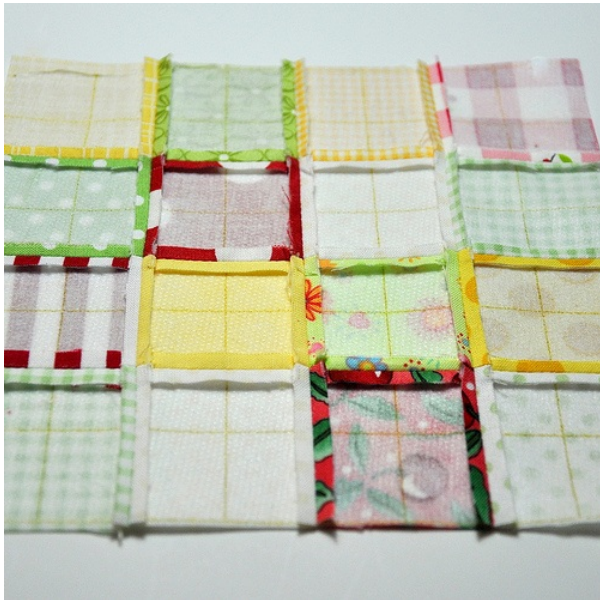

6)
Lay flat onto your cutting mat and trim just a hair off each seam. Press each seam open.

7)
Now repeat steps 4-6 for the Horizontal Rows.

Press entire pieced "block".

8)
Cut a piece of backing and batting...

9)

Quilt your pieced squares to the batting if desired. *Don't sew the Backing on yet.*

10)

Cut 4 pieces of Ric Rac (you will need 4 - 6.5" pieces for this mug mat)

11) lay them out on the right side of your pieced squares, as shown in the photo below. Starting at one point and going around. Baste the Ric Rac really close to the edge of the pieced top, all the way around.

12)

Now lay your pieced top and backing right sides together and sew around the mug mat, leaving an opening on one side for turning.

13)

Clip Corners, Turn Right Side Out, Press and then Top Stitch close to edge on all four sides, sewing the opening closed as you go.

Kim said...

These are adorable! I am just not sure about one thing--after you iron them to the fusing, then you fold the right side down to meet the next row? Then sew a seam?

I like this and will give it a try. Have been making my little girl a sampler quilt and when I got to the flying geese blocks I felt sad clipping all of those cute corners off. Been wanting to sew them together and use them for something this is just the right project for that.
